Programming Projects

Student Welcome Website

Fall 2023

- Created an HTML website for students at Prairie View A&M, in collaboration with a team of 7 programmers
- that is useful to all current and future students, show-casing advice and tips and tricks all students should know to have a great experience while at Prairie View A&M
- Added various hyperlinks to multiple other webpages designed from scratch by the team

Menu Driven Program

Fall 2022

- Created a menu-driven program show-casing various data structures, that allows users to choose from a variety of useful menu options, in which input is taken in from the user and they receive valuable information in return.
- Functions included calculating complex computations, fun facts, reading from a file, dictionary definitions, etc.

Work Experience

Little Caesars

Cypress, TX

Assistant Manager

May 2022 – January 2023

- Interviewed candidates and provided advice to manager on best fit for team to ensure quality hires
- Advised, mentored, and trained new employees on guidelines, safety, processes, and procedures
- Managed logistics, core business functions, and overall operations in place of or in conjunction with manager
- Increased customer retention rates and revenue by utilizing conflict management and resolution skills to troubleshoot customer concerns and retain long term customers

UserTesting.com

Cypress, TX

Website Tester

March 2021 - Present

- Review websites, prototypes, and products for a variety of companies
- Provide advice and user experience feedback on website functionality improvements for platforms and websites
